iPad Support Team
Instruction Technology Services

Apple Camera: Use Apple Camera to review curriculum concepts and skills.

SPELLING A NAME

-  Open the Apple Camera app
-  Take the iPad and “read” the room
-  Find an object that begins with the same letter as your first name
-  Make sure the object can be seen on the iPad home screen
-  Tap the shutter button
-  Continue traveling around the room and take photos of objects for each letter in your first name
-  Tap the home button 1 time when you are finished

DISCOVERING DETAILS

-  Open the Apple Camera app
-  Find an object to take a very close up shot
-  Make sure the object can be seen on the iPad home screen
-  Use the slider bar on the side of the screen to zoom in very close
-  Tap the shutter button
-  Find 3 more object and take close up shots
-  Tap the home button 1 time when you are done, then share your photos

EXPRESSING EMOTIONS

-  Open the Apple Camera app
-  Change the word PHOTO to VIDEO
-  Find a friend to help you with this activity
-  Hand your friend your iPad and stand in a place to be recorded
-  Your friend makes sure you can be seen on the iPad screen
-  Ask your friend to tap the shutter button to begin the video
-  Your friend should name the 6 emotions for you to demonstrate, one at a time
-  Demonstrate: happy, sad, scared, surprised, angry, and confused
-  Your friend should tap the shutter button again to stop the video
-  Now ask your friend for their iPad and you record them like they recorded you
