iMovie: iMovie lets you enjoy your videos and tell stories like never before.

GETTING STARTED

🍎 Tap app **ICON** to open.

🍎 Click on the **PLUS** to begin a new project.

CHOOSE A FORMAT

🍎 Choose to create a **MOVIE TRAILER** or make a **MOVIE**.

USING A TRAILER TEMPLATE

🍎 **REVIEW** the template choices by tapping the play button.

🍎 Click **CREATE** on the template of your choice.

🍎 Fill in the information needed in the **TIMELINE** tab.

🍎 In the **STORYBOARD** tab, add photos and videos from camera roll or take photos and videos in real time.

MAKING A MOVIE FROM SCRATCH

🍎 Choose images or video clips from **PHOTOS** or choose a background if desired.

🍎 Tap **CREATE MOVIE.**

🍎 Slide the PLAYER BAR to the beginning of your movie.

🍎 Tap **the MICROPHONE** to add your voice.

🍎 Tap **CAMERA** to take more images or video on the fly.

🍎 Tap **PLUS** to add more images or video from your photo album.

🍎 Tap the **GEAR** icon to add more elements into your movie.

🍎 Tap and hold the **TRANSTION ICONS** ⏭ to add more elements.

🍎 Tap the **PLAY** button to review movie.

🍎 Tap **DONE** when movie is complete.

🍎 Tap **EDIT** to return to movie creation.

🍎 Tap **MY MOVIE** to name your movie.

SAVING

🍎 When project is complete, tap the **SHARROW** button ⬆️ on the bottom to save project into iPad photo album.
