Keynote: Keynote is the most powerful presentation app ever designed for a mobile device.

GETTING STARTED

🍎 Tap app **ICON** to open.

🍎 Tap the **PLUS** to start a new project or edit an older project.

🍎 Choose a **TEMPLATE** to begin editing.

ADDING ELEMENTS

🍎 Tap the **PLUS** at the bottom of the slide column to add a new slide.

🍎 Tap the **PLUS** at the top right of the screen to add charts, graphs, shapes, or images.

🍎 Once object is placed on the screen and has bubbles around it, tap the **PAINT BRUSH**

🍎 Tap **STYLE** to add a fill, boarder, shadows, or reflections.

🍎 Tap **TEXT** to change font style, color, and placement.

(Note: You will find the text placement icon in the SHAPES icon, under the PLUS tab, in the BASICS category.)

🍎 Tap the **ELIPSES** (3 dots) to find more elements to add.

SAVING

🍎 Tap **PRESENTATIONS** when project is complete.

🍎 Tap and **HOLD** the title presentation to rename and/or share.

🍎 Tap where to **SAVE** presentation.
